SHANVIT S SHETTY

FRONTEND ENGINEER | REACT · NEXT.JS · TYPESCRIPT

Mumbai, India · +91 8433754577 · Email · GitHub · Portfolio · LinkedIn

PROFILE

Frontend Engineer with 4+ years owning React/Next.js architecture and product delivery across ecommerce, proptech, edtech, gaming and AI. Shipped interfaces for **70K+ weekly users**; improved listing load times **~10s to <1s** and contributed to **65% organic traffic growth**. Focused on performance, resilient UX and test-driven delivery.

EXPERIENCE

Founding Engineer — Frontend & Product | Zosma AI | Sep 2025 – Present

• **Architecture & quality:** Owned frontend architecture in a 5-person team, standardizing reusable Next.js patterns, monorepo tooling and observability (Grafana Faro, Umami); applied TDD, Expect CLI browser tests and automated code-quality checks.

• **Foodstories:** Owned Next.js storefronts for **4K+ DAU / 70K+ weekly users**, delivering checkout, gifting, B2B bulk orders and custom hampers. Applied SSR/ISR/SSG for **Lighthouse 98** and **<1s FCP**; sitemaps, canonicals and JSON-LD contributed to **65% organic growth in 3 months**.

• **Prakhhyat Group:** Engineered an offline-first litigation PWA (Next.js, PostgreSQL, Better Auth) with queued edits, reconnect sync and conflict safeguards; built Kanban case tracking, RBAC, audit trails, analytics, PDF reports and deadline alerts. Deployed on-prem with PM2.

• **Other shipped products:** Built finance UIs/AI copilots (Vercel AI SDK, Pi SDK); Next.js/Fastify vendor CRM with SAP-webhook shipment tracking; React Native D2C app (gRPC); Tauri/Next.js Tally desktop prototype; and Zosma Cowork UI decoupled from Hono agent runtime. Used Figma MCP for design handoff.

Software Development Engineer I | Mavonic | Oct 2024 – Sep 2025

• **PropertyGuru:** Re-architected Strapi listings from per-request SSR to static generation + ISR for **10K+ daily visitors**, cutting load time **~10s to <1s** without sacrificing data freshness.

• **Realtor Leads:** Built role-based lead assignment and follow-up workflows (Next.js, Strapi); helped optimize backend queries.

• **Draftus:** Shipped a mobile-first student–mentor MVP using Next.js, Supabase, server actions, optimized queries, TanStack Query and Zustand.

Frontend Engineer | IOTric | Jun 2022 – Oct 2024

• **Enoobs:** Built a Next.js 14 social gaming frontend from scratch; collaborated with design/product on UX, implemented Mixpanel tracking and mentored an intern.

• **Integrations:** Delivered Mirrorfly/Pusher real-time chat, ThirdEye Gen AR/MR UIs, Stripe billing, MyIDFi mortgage flows, lender search and realtor profiles. Joined as a university intern; promoted to full-time SDE I in 2023.

• **qie-chatbot:** Published a reusable npm React package for embedded chat interfaces.

OPEN SOURCE & SIDE PROJECTS

• **Tabot:** Local-first Chrome extension/dashboard mapping browser sessions, domains, navigation and recurring visits; MCP relay supports ChatGPT queries without cloud-sharing raw history (demo).

• **Qagent:** Change-aware Next.js regression tool mapping impacted routes, validating browser behavior and generating/refining AI-assisted Playwright tests.

• **OTP Service:** TypeScript OTP backend handling concurrency, multi-window rate limits and horizontal scaling.

TECHNICAL SKILLS

Frontend: React, Next.js, TypeScript, JavaScript, TanStack Query, Zustand, Tailwind CSS, shadcn/ui, Vite, Plasmo

Architecture & Quality: SSR, SSG, ISR, Core Web Vitals, technical SEO, TDD, Playwright, Cypress, E2E, Expect CLI, Biome, Knip

Backend & Platforms: Node.js, Python, Hono, Fastify, PostgreSQL, REST, Express, FastAPI, Supabase, Strapi, MongoDB

AI & Tooling: Vercel AI SDK, Pi SDK, Model Context Protocol (MCP), Figma MCP

EDUCATION

BSc Information Technology | Mumbai University | GPA: 9.13 | Sep 2020 – May 2023
